Part II

For Questions 7-13, complete the summary of a welcoming speech.

Write your answer in **NOT MORE THAN TWO WORDS AND/OR A NUMBER** for each answer.

Energy-Efficient Vehicles (EEV) are a form of green transportation that minimise (7) _____ emissions and eliminate reliance on fossil fuels. As an oil-producing nation, Malaysia needs to conserve its resources and alternate its dependence on fuel combustion engines and their toxic emissions. In recent years, Malaysia has set EEV production goals and adopted several policies to (8) _____ greenhouse gas emissions while meeting the transportation sector's growing energy demands.

This study evaluates the (9) _____ and initiatives for EEV and their relevance and implementation in the present scenario. It is worth ascertaining the (10) _____ that need to be in place for the government to push for the adoption of EEV. This study first reviewed relevant government policies supporting EEVs.

Next, a comparative analysis of EEVs initiatives between Asia Pacific Economic Cooperation countries was discussed. Simultaneously, expert panels (11) _____ through interview sessions to identify gaps in the implementation of EEVs. Based on the findings, the relationship framework of EEVs initiatives and an outline of strategies to improve existing practices (12) _____.

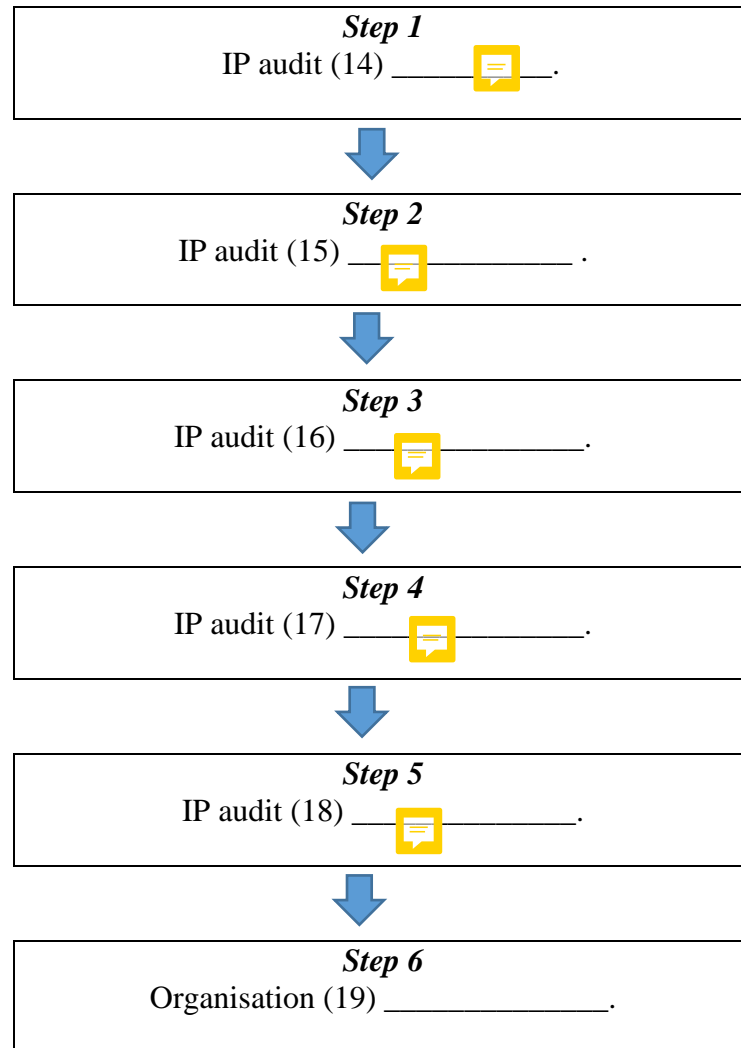

As a result, this study proposed integrating various agencies and market players as an essential factor to determine the success of implementing EEVs. By way of conclusion, a summary of (13) _____ is put forward as a recommendation to stimulate the current EEV market.
